We needed photos for client and publicity purposes on short notice. The shoot was on a boat, at night in the midst of a crowd. Gregory Case captured the pictures we needed, accepting and overcoming the challenging conditions as just part of the job. We were very pleased with the quality and variety of photos as well as the price.

Elena was a member of our nonprofit board, so I was able to work with her both as a volunteer and as a paid professional. She and Greg provided a creative working team to address all our photography needs. Both are utmost professionals, bringing their creative juices to fore and getting the work done on time. I highly recommend Elena as a wonderful resource.

I hired Elena Morera and Gregory Case for an all-day product photo shoot and they both were easy and great to work with. They both had a high level of commitment to doing the job right, on time, and in a creative and collaborative manner. I would highly recommend their team for any photography assignment.

The pictures [of my paintings] look great.

Alix McKenna, Artist

Accurately photographing two-dimensional art is, in itself, an art form. I was not able to catalog my portfolio before I found Gregory. His passion for detail matches my passion for painting—I won't trust my artwork to anyone else.

Taking on a huge event where your own reputation is at stake can be scary—and then choosing partners to help "make it all happen" can be even more intimidating! You cannot afford to make a mistake or miss a detail. When I retained Elena Morera and Gregory Case to "document" book group expo, I made a great decision. And it was a decision I repeated every year.

Elena and Greg are not only a great photography team; they are great partners in the process. We walked through expectations not only of their role, but also of what I wanted the end results to reveal. Planning. Planning ahead. Anticipating what I didn't even know to anticipate. Again, just stellar partners.

I have since recommended this team to others—whether event photography (small or large) or more high-end product shots, Gregory Case Photography is a smart decision. And besides that, Elena and Gregory are just good people. It's a great combination!

Gregory worked with me for the photo I needed for my website. He spent time upfront to understand my needs, preferences, and style. He created a very friendly environment to help me relax and have good photos taken. Once we agreed on the shot, he immediately made the modifications necessary to use on the website, so when I left his studio, I had everything I needed. Thanks!

We were delighted to have the donated services of Gregory Case Photography at Cool Stuff (Design Response's Annual Fund Raiser). Gregory has generously agreed to donate 10% of the proceeds from the sale of Cool Stuff photos back to Design Response. His work is fantastic and his presence warm and unassuming--perfect for candid work!
