

## **Quilt, Textile, and Fiber Art Book Customer Photography Comments**

*This is photography week for me here in the studio and for Gregory Case out in sunny California. He is photographing the quilts for my book, and they returned yesterday along with the photos.*

*In a word: gorgeous. The man makes my quilts look good. And he's a consummate professional who takes so much pride in his work. Isn't it fun to work with people who inspire you to greatness?*

*The photographs are beautiful. I'm so glad I made the investment in quality photography for this book, as it will really make it stand out from other self-published works. Thanks again.*

*You helped make a gorgeous book possible.*

**of 2009**

*You photographed my quilt, Flocks of Geese, for the book, 500 Traditional Quilts. I wanted to share with you that IQA would like include my quilt in the special exhibit at Houston featuring quilts from the book! I'm so excited! This exhibit will also be on display at the Texas Quilt Museum and travel to other IQA shows.*

*I'm sure your wonderful photography made a big difference. The images were just amazing. Thank you again!*

**Laurie Mayo**

*All of the images look great. Thanks.*

**Dawn Dillingham**  
**Editorial Assistant, Lark Needlearts,**  
**Sterling Publishing Co., Inc.**

*I've got the images and they look great.*

**StarInfo|StarBooks, The Kansas City Star**

That styled shot is absolutely gorgeous. I will definitely push for that as the cover shot!

*I have been so excited all weekend about your kind offer to photograph both of my quilts It's great to know that my quilts will look their best in the 500 Traditional Quilts book! I really can't thank you enough for helping me afford to hire the very best for these photos!*

*I was excited to find out that my quilts had been accepted for the book, but was also anxious about getting photographs that would be appropriate for that purpose. The photos are so beautiful...thank you so much! You highlighted the quilting perfectly and the detail photos are delightful!*
